Introduction	1
Installation	1

### Introduction

Thank you for purchasing a MacWireless Bluetooth USB Adapter. With Bluetooth you can....

- Exchange files between your Mac and Bluetooth-enabled mobile phones, PDAs, computers, and other devices.
- Synchronize data such as contacts and calendars between your Mac and Bluetooth-enabled palm-powered handheld devices.
- Connect your computer the Internet using Bluetooth and a mobile phone. This requires Internet service from your mobile phone service company.
- Use a Bluetooth wireless keyboard or mouse.

### Installation

To install your Bluetooth USB Adapter, simply plug it into an available USB port on your Macintosh computer.

To set up a Bluetooth device:

- Use the Bluetooth Setup Assistant, located in the Applications/Utilities folder on your Mac's hard disk (OS X).
- You can also choose "Set Up Bluetooth Device" from the Bluetooth status menu in the menu bar.

To find out more, open the Bluetooth File Exchange and choose Help > Bluetooth Help.
